

# GRASSTOWNE

"We've just finished compiling our top picks for the upcoming BEST OF 2010 year and special edition of Into the Blue and Grasstowne has firmly placed themselves in the line-up with 'KICKIN UP DUST.' Nicely done gentlemen!"

**Terry Herd**  
**Bluegrass Radio Network**

"...they have an air of freshness that makes me want to keep listening."

**John Shelton Ivany's Top 21**

"*Kickin' Up Dust* is the best piece of work Grasstowne has produced."

**Ted Lehmann - Bluegrass CD Reviews**

"..this is a bluegrass CD you'll play over and over."

**Aaron Keith Harris - The Lonesome Road Review**

"Great new sounds from some of the best in Bluegrass. Hard driving rhythms and fantastic vocal work are a Grasstowne trademark and this is good stuff."

**Dennis Jones - "Goin' Across The Mountain/The Gospel Truth" - WNCW Spindale NC**

"Grasstowne is sure to kick up some dust in the bluegrass world with their new Release on Rural Rhythm Records. When it comes to this combination you only expect the best and you've got it."

**Larry Carter, WCXZ Radio, Bluegrass for Breakfast**

"You got some Great Grass here! These boys are playing some good driving Bluegrass that will keep our listeners on there toes! The boys take this song and get Down on the farm and go Up-Town with some mighty fine Progressive Pickin'."

**Jerry Eicher, WQTE Radio**

"Grasstowne's 2010 sophomore album, *The Other Side of Towne*, was so strong as to move yours truly to speculate in these pages as to how the quintet would have its hands full trying to top it. Turns out there was another direction to go other than down, and it was up—*Kickin' Up Dust* finds the band dealing some more powerful traditional bluegrass on a host of songs arguably even stronger than those on the previous outing."

**The Bluegrass Special**

"Thus, no matter what you came to the table for—plain-out bluegrass, Jesus songs, 8-cylinder playing, or just a dang good time, you'll come away with an after-feast smile, the bliss of surfeit, and a sigh as you settle in for pleasant dreams on the porch side couch as stars twinkle above and a lonely train whistle sings one and all to the North 40 in the Great Beyond."

**FAME**

# GRASSTOWNE

"I have put this off way too long. It was a pleasure to open the jewel case of the colorful CD with the vintage Red Chevy. It was fun just to put it in the CD deck and sit back and enjoy. This was a joy to listen to, no filler. Bluegrass that is traditional, but creative too."

**Jim's Country Reviews**

"*Kickin' up Dust* kicks up excitement as each new song from Grasstowne always does! Professional Bluegrass musicians - top of the line - can NEVER be improved upon! Grasstowne keeps us deep down in the BLUE! We love it!"

**Gracie Muldoon - WorldWideBluegrass.com**

"Although Grasstowne is a new configuration, they still provide the same driving lonesome sound that satisfies old and new fans. The project showcases stellar musicianship and heartfelt vocals."

**Bob Mitchell, Radio Bluegrass International and WKWC-FM**

"Grasstowne became an instant super group when it burst on the bluegrass scene in 2007..... Its <leaders> were established stars in their own rights.....Both are good songwriters and between them they contributed five songs to *Kickin' Up Dust*."

**Keith Lawrence  
Sacramento Bee**
